## Material Safety Data Sheet

Product Name: Autoshampo & antistatic agent CHISTIK

Date: 12.02.2019

Page: 1 of 3

### I – Identification of the Product and the Company

Trade Name:	WAXis Professional, REWAX LONG SHINE, Plastic restorer-cleaner, Leather restorer-cleaner		
Pack Size:	0,5 L		
Product Definition:	Protects from corrosion and dust all paint-and-lacquer coating of vehicles.		
Manufacturer:	Limited Liability Company «RM»		
Address:	Russia, 198099, 40A Promyshlenaya st.		
City:	Saint-Petersburg		
Emergency Telephone Number:	+7 (812) 325-3726		
Information Telephone Number:	+7 (812) 325-5098	Fax: +7 (812) 325-3726	
Product Use:	Cleans and protects paint-and-lacquer coating		

### II – HAZARDS IDENTIFICATION

Classification	The material is not hazardous as defined in TY 2384-003-48972936-2002. It is not hazardous for health under normal application conditions. It is not classified as hazardous substance for environment.
Hazard for health	
Ecological hazard	

### III – Composition

Chemical composition	Water flavored mass with surface-active substances, solidified with carboxymethyl cellulose and filling compounds.
----------------------	--------------------------------------------------------------------------------------------------------------------

Product	Chemical name	Volume %	CAS-Number
Pastes “Chistic”	Carboxymethylcellulose	0,3-0,5	9004-32-4
	Glycerin	15,0-18,0	56-81-5
	Cationic surfactant	3,0 – 5,0	91995-81-2
	Water	The rest	7732-18-5

### IV – First Aid Measures

Eyes	Promptly rinse eyes with plenty of water whilst lifting the eyelids. Continue to rinse for at least 15 minutes. Seek medical attention if discomfort persists.
Skin	Remove contaminated clothing. Wash skin thoroughly with soap and water. If any symptoms persist after washing, seek medical attention showing this sheet.

### V-MEASURES AND MEANS OF PREVENTING FIRE AND EXPLOSION HAZARD

Extinguishing Media	Non flammable liquid – use extinguishing media appropriate to surrounding fire.
---------------------	---------------------------------------------------------------------------------

VI- MEASURES OF PREVENTING AND LIQUIDATION OF ACCIDENTS AND EMERGENCES
------------------------------------------------------------------------

Poured product is swamped with sand, clay or other inertial material is scooped up mechanically. Utilize proper way. It doesn't let product get in drinking sources on water pools surfaces, sewerage and soil.

VII- Handling and Storage
---------------------------

Handling	When handling this product, observe good standards of industrial hygiene to avoid swallowing and eye or skin contact by the use of suitable personal protective equipment.
Storage	Store in a dry place away from all sources of heat, including direct heat.

VIII- Personal Protection
---------------------------

General	Under normal conditions the product "Chistic-Profy" is a stable product and does not require special measures of safety. The product "Chistic-Profy" relates to the class of fire -resistant and small toxicity products.
Respiratory Protection	None required under normal use.
Hand Protection	Wear rubber gloves (in process of manufacturing).
Eyes Protection	None required under normal use.
Skin Protection	None required under normal use

IX – Physical and Chemical Properties
---------------------------------------

Appearance	Homogeneous pastes or gel from white or colouring.
pH	4,5 – 8,0
Flash Point	N/A
Flammability	Non Flammable
Explosive properties	N/D
Vapour Pressure	N/D
Auto Ignition Temp	N/A
Viscosity Index	N/D

X – Stability and Reactivity
------------------------------

Stable under normal and intended uses and applications. Hazardous polymerization will not occur.

XI – Toxicological Information
--------------------------------

Skin Irritation	Non Irritant
Eyes Irritation	Non Irritant
Other Toxicological Information	<p style="text-align: center;">The above information is calculated and based on data supplied by the manufacturer of the raw material. This product has not been tested on animals. There is no evidence of carcinogenic or mutagenic effects nor is the product toxic for reproduction.</p>

XII – Ecological Information
------------------------------

Biodegradability: No information available.

Environment protection while manufacturing is observed by tightening all the technological equipment, presence of trapping systems in relief and vacuum lines .

Liquid or solid waste is absent.

### XIII – RECOMMENDATIONS FOR WASTE UTILISATION (REMAIDERS)

Wastes (remainders) place in strictly labeled container for next utilization and regeneration. Any means of actions with wastes must be appropriate to all local and public laws and normative acts.

### XIV – Transport Information

Proper Shipping name	Not classified according to transport regulations as hazardous goods.
UN Number	N/A
Hazard Class	N/A
Symbol	N/A
Packing Group	N/A
IATA/DGR Limits	N/A

It is not subjected to norms of "IATA Dangerous Goods Regulation (DGR)" edition 60<sup>th</sup>, 2019

### XV – NATIONAL AND INTERNATIONAL LAGISLATION

Laws of Russian Federation:

“About technical regulation”;

“About environmental safety”;

“About sanitary-epidemiological well-being of the population”.

Under the international conventions and agreements it is not subjected

### XVI – Other Information

The Information in this Safety Data Sheet is given in good faith. The information herein is accurate to the best of our knowledge and represents the most up to date information available to us. Products should be handled and used in accordance with the advice given. The information in this Safety Data Sheet does not constitute an assessment of workplace risks.

#### Recommended uses and restrictions

This product is intended to be used as per the instructions on the pack.

#### Data Sources

Chemicals (Hazard Information and Packaging for Supply) Regulations .

Abbreviations: N/A = not applicable or available

N/D = not determined.
