| I – IDE | NTIFICATION | OF THE PRODUCT | AND COMPANY | | |
|---|--|--|--|---|--|
| Trade Name | (Copper gre MC 1420 OG MC 5117-2P 5115-2, PLM Vzhik, Greas coupling, Co | ase), MC 1400 Nord, I 6H, MC 1710, Promant , MC-5117-2, MC-5123 -460-1, MC-1000 CLS se for drill bit shanks, oncentrated moto gre | MC 1410 Nord, MC te, Tripod CV JOII 8-2 PLASMA, SPM -2, Semi-liquid IuI , Grease for air fil ase, MC ULTRA, | n, MC 1610 Magma, MC 1640 C 1410 OGW, MC 1410 OGS, NTS, MC-SHRUS, MC 4115, 1500.1/2, MC-4217-2, MC- pricant for reduction gears, ters, Grease for fifth wheel MC ULTRA-O, MC-1, MC-2, | |
| Purpose | PLM-460, SuperF, TRB 100-2, MC HDD, Universal moto grease Multipurpose grease for chassis units of vehicles and most of friction units of other equipment. The grease possesses restoration and antifriction properties under temperature -40°C +140°C. | | | | |
| Producer | VMPAUTO LLC | | | | |
| Address | Promyshlennaya str. 40A, 198095, Saint-Petersburg, Russia | | | | |
| Tel/Fax: E-mail | | -05-50 / 601-05 59, ex | | n | |
| Classification | | ZARDS IDENTIFICATI | | 118-45540231-2005 | |
| Hazard for health | The material is not hazardous as defined in TC 0257-018-45540231-2005. It is not hazardous for health under normal application conditions. | | | | |
| Ecological hazard | | ified as hazardous sub | | | |
| - | II | I - COMPOSITION | | | |
| Chemical composition | Product is a | composition of mineral | oil, emulsifier, inhi | bitor of corrosion and filler. | |
| Product | | Components | mass concentration % | CAS-Number | |
| | | MoS2 | 0,5-3% | 1317-33-5 | |
| MC-1000, MC 1500, MC-1510 BLU Rubin, MC 1610 Magma, MC 16 | MC-1000, MC 1500, MC-1510 BLUE, MC 1520 | | 3-7% | 7440-66-6 | |
| grease), MC 1400 Nord, MC 1410 No | ` | Lithium soaps | 10-20% | N/A | |
| OGW, MC 1410 OGS, MC 1420 OGH, MC 1710, Promante, Tripod CV JOINTS, MC-SHRUS, MC 4115, MC 5117-2P, MC-5117-2, MC-5123-2 PLASMA, MC-4217-2, MC-5115-2, PLM-460-1, MC-1000 CLS-2, Semi-liquid lubricant for reduction gears, Vzhik, Grease for drill bit shanks, Grease for air filters, Grease for fifth wheel coupling, Concentrated moto grease, MC ULTRA, MC ULTRA-O, MC-1, MC-2, PLM-460, SuperF | | Blends of mineral oils | remainder | 8042-47-5 | |
| • | IV – F | I FIRST-AID MEASURE | S | | |
| Conoral information | It is not been | rdoug for bookle! | normal annii | aanditiona | |
| General information | | It is not hazardous for health under normal application conditions. Washout eyes with big quantity of water during 15 minutes. If irritation continues, | | | |
| Eyes | consult a doc | ctor. | | | |
| Skin | | | washout with soa | p. Under normal use doctor's | |
| | consultation | is not necessary. | | | |

| Anatomical airways | | utside. If breathing is difficult – consult a doctor. | | | |
|--|--|---|--|--|--|
| Digestive system | healt | Cure is not necessary. Exception is sudden swallowing of big quantity of product. If health is worth, consult a doctor. | | | |
| V- MEASURES | AND ME | ANS OF PREVENTING FIRE AND EXPLOSION HAZARD | | | |
| Firefighting tools | | Firefighting tools are used that don't keep on fire (sand, large felt melt, water, chemical foam, dry powder etc.) | | | |
| Special hazard | Risk | k is not identified. | | | |
| Prohibited means | Do n | not use water in the form of a jet. | | | |
| Means of individual protection | Prote | Protective suit, respirator, isolated gas mask. | | | |
| VI- MEASURES OF I | PREVENT | ING AND LIQUIDATION OF ACCIDENTS AND EMERGENCES | | | |
| doesn't let product get in drinking so | ources on | or other inertial material is scooped up mechanically. Utilize proper way. It water pools surfaces, sewerage and soil. | | | |
| VII- STORAGE REGULATION | ONS OF C | HEMICAL PRODUCTION AND ITS TREATMENT UNDER HANDLING OPERATIONS | | | |
| One and anist and a | ا ا ا ا | | | | |
| General safety rules | | nder normal use of the product is stable and does not require special protective | | | |
| Handling | | equipment. The product relates to hardly combustible and low toxic class. It is not necessary under normal use. | | | |
| Storage | Use rubber gloves. | | | | |
| Recommended materials | <u> </u> | | | | |
| Incompatible materials | | It is not necessary under normal use. It is not necessary under normal use. | | | |
| | | FOR HAZARDS AND MEANS OF INDIVIDUAL PROTECTION | | | |
| | | | | | |
| General information | spec | Under normal use of the product preparation, product is stable and it doesn't require special protective equipment. Preparation of the product is related to hard combustible and low-toxic products. | | | |
| Protection of breathing | | It is not required under right application. | | | |
| Protection of eyes | It is r | It is not required under right application. | | | |
| Protection of skin | It is r | not required under right application. | | | |
| Protection of hands | Use | Use rubber gloves. | | | |
| | IX – PH | IISICAL AND CHEMICAL PROPERTIES | | | |
| Physical condition | | Viscous paste, black color. | | | |
| Drop point, ⁰ C | | 225 °C | | | |
| Density g/cm ³ | | 0.915 | | | |
| Water solubility | | Non water-soluble | | | |
| Penetration | | 230-290 | | | |
| Colloid stability, % mass of separate | ed oil. % | 10 | | | |
| Flammability | - J. | Not flammable | | | |
| Oxidizing properties | | Absent | | | |
| Pressure of vapor | | N/A | | | |
| | X – S | TABILITY AND REACTION CAPACITY | | | |
| Chemical stability | | Material is stable under normal use conditions and storage. | | | |
| Hazard of polymerization | | Not hazardous | | | |
| Incompatibility | | With strong oxidants | | | |
| Hazardous products of decomposition | | Under normal storage conditions, formation of hazardous products is not supposed. | | | |
| | Ϋ́I | -TOXICOLOGICAL INFORMATION | | | |
| Droduct is not heart-days for area | | | | | |
| GOST 12.1.007). | mom and | relates to IV Class of Hazard (substances are moderately hazardous as in | | | |
| 223201/. | | | | | |

| | • | WATERIAL GALLIT DATE GILLI | | | |
|--|---|--|--|--|--|
| Irritation of skin | | Slight irritation | | | |
| Irritation of eyes | | Slight irritation | | | |
| Other toxicological information | | Information is based on properties of raw materials. | | | |
| | | It is not proved its carcinogenic or mutagenic property. | | | |
| | X | II – ECOLOGICAL INFORMATIOM | | | |
| Eco-toxicological data were n | | | | | |
| The information above is b products. | ased on knowle | edge of components and results of eco-toxicological research of analogue | | | |
| Acute toxicology | Product is considered non-toxic. Mineral oil does not make chronic action on water organisms | | | | |
| | under concentration less than 1mg/l. It has slow toxic effect on fish and micro flora of water | | | | |
| | pools. | | | | |
| | In water and air in the presence of other substances does not form toxic compounds. | | | | |
| Movement | Product is not mixed with water. Under penetration in soil it is absorbed with its particles. | | | | |
| Stability | Product is not fast bio-degradable. Basic components are bio-degradable, but product has non bio-degradable substances. | | | | |
| Bio-accumulation | Some components can accumulate in alive organisms. | | | | |
| Other impacts | It is not supposed a possibility of destruction of ozone layer and influence on global warming. | | | | |
| Protection of environment is wastes are absent. | provided unde | er production with hermetically sealed technical equipment. Liquid and solid | | | |
| XIII – RECOMMENDATIONS FOR WASTE UTILISATION (REMAIDERS) | | | | | |
| Wastes (remainders) place in strictly labeled container for next utilization and regeneration. Any means of actions with | | | | | |
| wastes must be appropriate t | o all local and pu | ublic laws and normative acts. | | | |
| XIV –INFORMATION AT TRANSPORTATIONS (SHIPMENT) | | | | | |
| Properties of transportation | Properties of transportation | | | | |
| UN number | IN/A | | | | |
| Hazard class | nzard class N/A | | | | |

ADR/RID (Road transport)
IMDG (Sea transport)

IATA (Air transport)

It is not subjected to norm ADR/RID

It is not subjected to technical conditions IMDG

It is not subjected to norms of "IATA Dangerous Goods Regulation (DGR)"

edition 60th, 2019

Product can be transported with any transport.

XV - NATIONAL AND INTERNATIONAL LAGISLATION

Laws of Russian Federation:

- "About technical regulation";
- "About environmental safety";

"About sanitary-epidemiological well-being of the population".

Under the international conventions and agreements it is not subjected.

XVI - ADDITIONAL INFORMATION

Contents and form of the given document corresponds to requirements:

- 1. GOST 30333-2007 "Passport of safety of chemical production. General requirements".
- 2. GOST 12.1.007-76 « Harmful substances. Classification and general safety requirements".
- 3. GOST 12.1.005-88 «General sanitary-epidemiological requirements to air of working zone".
- 4. GN 2.1.5.1315-03 "Maximum permissible concentration of (MPC) of chemical substances in water of water pools for household-drinking and cultural-household water management".
- 5. ΓΟCT 19433-88 «Hazardous loads. Classification and labeling".

Information in this Safety Card corresponds to the latest modern level of our knowledge about product.

Product is applied and used in accordance to given advises. Information in this Safety Card does not compile instruction on the workplace.

Data contains in the given document have to be opened to any potential users of this product.

Utilization recommendations:

This product is applied and used as compound for sealing of threaded connections as specified in instruction on package for sealing of threaded connections.

Data: Abbreviation: N/A = was not identified;

N/D = is not determined.
